1 Main Title

1.1 second level title

Here is **bold face**.
Here is *italic font*.
here is `plain text`.

"use two back ticks to start a quatation and two signle quotes to end queation".

- first bullet point

- second bullet point

- third bullet point

1. first bullet point

2. second bullet point

3. third bullet point

```
Text here is  literal. with  no formatting  signs Careful, there is also no margin control!
```

Fortunately, most of what you do for writing in LATEXactually follows the rules for plan text!

> This indents an entire paragraph for an extended quatations

```r
x <- runif(10)
y <- runif(10)
# comments as always with a hash tag
print(x)

## [1] 0.874395186 0.885958287 0.601192837 0.037842061 0.680669943 0.494013213
## [7] 0.289803935 0.007280976 0.993834328 0.973760715

plot(y)
```
